

Drew Transition Center (313) 873-6880

- It is the goal of School Social Work Service to contribute to the successful education of students by providing comprehensive social work services to empower each one, to become a successful learner and productive citizen in a global society.
- School Social Work Service enables students to achieve maximum emotional, social and educational success within the school environment and the community at large.
- School Social Workers are an integral part of the educational team who provide direct and indirect services to students, families and school personnel to promote and support student's academic and social success.
- School Social Workers are Licensed Mental Health Professionals who provide services related to a person's social, emotional and life adjustment to school and/or society.
- School Social Work services fall into these basic categories:
 - Individual and group therapy
 - School crisis intervention
 - Assessments for Autism Spectrum Disorder and Emotional Impairment
 - Consultation with students, school personnel and agency staff members
 - Program Development
